CHAPTER XVII The Value And Use Of Original Tendencies At the beginning of this volume it was stated that human welfare required that some original tendencies be cherished, that some be redirected or modified, and that others be eliminated outright. Such is the ordinary common-sense view expressed, for example, by Meumann [07, edition of 11, p. 699 f.] in the following passage: -- Wherever we compare the child who has been relatively left to himself with the child of like age who has been more subjected to training, we see that the more educated child has progressed very, very much farther than the child left more to himself; and further, where our present education as a whole neglects certain functions, these remain far below what the child might achieve. We could also recall such cases as that of Caspar Hauser, who grew...
