Cold Spring Harbor Laboratory Press, U.S., United States, 2009. Paperback. Book Condition: New. 2nd Revised edition. 276 x 216 mm. Language: English . Brand New Book. In addition to a new chapter on the in vitro analysis of chromatin templates for DNA-binding studies and transcription, this second edition has been extensively rewritten and updated to discuss new advances in the field and their impact on gene regulation mechanisms. The second edition retains the approach of the first in covering both the conceptual and practical aspects of how to study the regulation of a newly isolated gene and the biochemistry of a new transcription factor. *Transcriptional Regulation in Eukaryotes* serves as both a powerful textbook and manual for advanced instruction in molecular biology which -supplements...
