Brand New Book ***** Print on Demand *****.The is a novel written in the context of small sub-urban area of Nigeria. The novel is a innovative move in the direction of portraying the aspirations of the lesser developed countries of the world. The novel in a vivid illustration of a life of a two children who are geniuses and their family. The author has developed the story through simple English so that many more readers can enjoys reading this novel. Children must be encouraged to read this novel as this is a classical example of the life of families who are no so economically fortunate enough but still enjoy a happy life of their own without the modern day clutter of urban life style. The novel has deep rooted moral in the story. How the poor man of village convinces himself of the importance of traditional medicine when he is unable to get expensive medical services. This novel can be eye opener for policy makers who care little about the basic infrastructures of the rural areas. The innovation in ones own approach can surely give a better life to rural folk. They are not concerned about their own life but think about the common good of the society. The climax of the story is wonderful. It would be unfair if I real all thinks in this review. You must read and explore the beauty of the story and the innovation of little geniuses.
