Ane Books Pvt. Ltd, 2010. Softcover. Book Condition: New. First edition. Throughout my student life as well as in my 50 years of teaching career I have felt the absence of a textbook, which could encompass the subject of Botany in its entirety. I have always believed that such a book should comprise all the branches of botany in an exhaustive and authentic manner, so that the student could get all the updated material at one place. I have provided all possible information in simple words and the subject-matter has been explained throughly with the help of a large number of suitable illustrations.
