

The Underground Haulage of Coal by Wire Ropes Including the System of Wire Rope Tramways as a Means of Transportation for Mining Products a Practical Essay Written for John A. Roeblings Sons Co

By Wilhelm Hildenbrand

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1884 Excerpt: . . . comes out. If the cross-cut way be next ready, it will be seen that to put the ropes right for this branch four rope ends will have to be connected, two at station (A) and two at (B). On Plane No. 2 it will be noticed that the ropes connected with the engine are those of the third west way, and here also the set is supposed to be at the shaft. All branches on Plane No. 1 are dipping inward, while those of Plane No. 2 dip towards the shaft. The branch ropes on Plane No. 2 are connected in the same way as on Plane No. 1, and here also it is necessary to connect four rope ends when the third west way has to be worked, if the second and the first west way have been worked before it. In the first west...
