By Arthur Williams

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Commercial Engineering for Central Stations: A Compilation of Papers Dealing With Subjects, of Particular Interest to Those Engaged, in Central Station Commercial Engineering Work The several chapters of this book deal with a number of subjects more or less diverse in character. The compilation of these different subjects in one book can, perhaps, be justified upon the ground that they all fall within the scope of central station commercial engineering. A few of the chapters - in slightly different form - have appeared in certain of the technical periodicals during the past year, notably in Power and in the Electrical World; the subject-matter contained in the remaining chapters makes its initial appearance in this book. The various data embodied in this compilation of papers have been accumulated by the authors while conducting investigations along commercial engineering lines for one of the largest central stations. As an aid in widening the field of application for their product, the importance of commercial engineering is becoming more generally recognized by the central stations as they proceed further into...
